

Media Release –

ITECA Mobile App – A New Resource For The Skills Training & Higher Education Sectors

For Immediate Release
Thurs, 18 Sept 2025

The **Independent Tertiary Education Council Australia (ITECA)** is proud to announce the launch of the new **ITECA Mobile App**, designed to provide time-critical information to independent Registered Training Organisations (RTOs) and higher education institutions.

Independent RTOs support around 90.5% of the 5.1 million students in skills training across the country and around 10% of the 1.6 million students in a higher education award program. In this context, the **ITECA Mobile App** looks set to become a key information resource for the quarter of a million people employed in the tertiary education sector.

“The app also offers essential insights for journalists, business leaders, government officials, and politicians who need to stay informed about developments in the skills training, higher education, and international education sectors,” said **Troy Williams**, ITECA Chief Executive.

The **ITECA Mobile App** is a one-stop platform offering easy access to a wealth of information and analysis. The app leverages official government data to offer timely analysis, ensuring users have the insights they need to make informed decisions.

“With detailed data on the performance of the skills training system, including enrolment statistics, users can gain a clear picture of trends and issues impacting both independent RTOs and the broader training and education landscape,” Mr Williams said.

Beyond data, the app also features a regularly updated summary of key events within the sector, making it easier than ever to track significant developments.

“Whether it's major policy announcements, sector conferences, or government consultations, the ITECA mobile app ensures that users are always up-to-date with what's happening in the skills training, higher education and international education sectors,” Mr Williams said.

As the voice of independent RTOs and higher education institutions, ITECA is committed to providing tools that empower our members and sector stakeholders to engage with critical issues effectively.

“Our new mobile app is designed to make accessing key data and staying informed as simple as possible,” Mr Williams said.

With its intuitive interface, the **ITECA Mobile App** is an indispensable tool for anyone looking to keep pace with the fast-evolving world of skills training and higher education. It is available for download via the Apple App Store and the Google Play Store at:
